

DHARMIK MAKVANA

FLUTTER DEVELOPER

SUMMARY

As a Computer Engineering fresher, I have strong programming skills in C, C++, Java, and Python. I understand core programming concepts and object-oriented principles. I have basic knowledge of Machine Learning and Artificial Intelligence. Skilled in building beautiful UIs using Flutter's widget library and real-world applications using Android Studio. Able to build functional and user-friendly mobile applications. Skilled in HTML, CSS, and basic JavaScript for responsive web design. Eager to learn new technologies and grow in dynamic environments.

EDUCATION

Diploma in Computer Engineering - completed **Sep 2022 - June 2025**

- Shree Dhanvantry College Of Engineering and Technology, Kim.
- **CGPA : 10/9.42**

B.Tech In Information Technology - Running **July-2025**

- Vidhyadeep University, kim.

TECHNICAL SKILLS

- **Programming Languages** : C , C++ , Python , Java , Dart.
- **Web Development** : HTML, CSS, JAVASCRIPT(Basics) , PHP.
- **Database Management** : MySQL , SQLite , Shared Preferences , Firebase Firestore.
- **Frameworks & Libraries** : Flutter, Android SDK, Provider, GetX, Dio, http.
- **Developer Tools** : GitHub, Android Studio, VS Code, Flutter DevTools, Postman.
- **Flutter Developer** : Routing & Navigation , asynchronous programming , Stateless & Stateful Widgets , Widget Lifecycle , State management Using Provider and GetX , RESTful API Integration , Local Storage.
- **Concepts** : Data Structures, Algorithms, Object-Oriented Programming (OOP), Machine Learning (Basics).

ADDITIONAL INFORMATION

- **Languages** : Gujarati , Hindi , English.
- **Expertise** : Teamwork , Problem-solving , Management Skills , Leadership.
- **Achievements & Certifications** : Diploma 1st Year Topper , Diploma 2nd Year Topper.
- **LinkedIn** : www.linkedin.com/in/dharmik-makvana-190302342
- **GitHub** : <https://github.com/dharmik00700/Flutter>
- **Contact Us** : +91 94845 60730 | dharmikmakvana1107@gmail.com .
- **Address** : D-1107 Suman Darshan Couseway Road NR D-mart Singanpore, Katargam, Surat.

PROJECTS

Project 1 : - MyNotes :

- **Description :** - MyNotes that works completely offline using SQLite database (sqflite package). The goal is to create a clean UI and implement offline data storage.
- **Technologies Used :** - sqflite , path_provider.
- **Key Features :** - Perform CRUD operations , Design proper UI for listing, adding, updating, and deleting notes , Maintain data even after app restart.
- **GitHub :** - https://github.com/dharmik00700/Flutter/tree/main/Assesment/Flutter_offline_database

Project 2 : - favorite places

- **Description:** - Favorite places that works completely online or offline using (SQLite database package). The goal is to create a clean learn google map , http Api integration and implement offline data storage.
- **Technologies Used :** - sqflite , google_fonts , get , image_picker , location , http , google_maps_flutter .
- **Key Features :** - location picker ,map screen , imagepicker add images using phone camera database beacause Maintain data even after app restart.
- **GitHub :** - https://github.com/dharmik00700/Flutter/tree/main/Assignments/Apps/favorite_places

Project 3 : - MyCityConnect

- **Description:** - MyCityConnect that works completely camera/gallery use, Firebase, API parsing, animations, and routing all in one simple, integrated task.
- **Technologies Used :** - Shared preferences , image_picker , http , firebase_auth , firebase_core.
- **Key Features :** - login screen , navigation drawer , Fetch JSON data , Splash Screen.
- **GitHub :** - <https://github.com/dharmik00700/Flutter/tree/main/Assesment/myapp/newapp>

Project 4 : - NewsApp

- **Description :** - NewsApp that works completely Api integration .
- **Technologies Used :** - Shared preferences , cached_network_image , http.
- **Key Features :** - login screen , categories screen , Fetch JSON data , Splash Screen.
- **GitHub :** - https://github.com/dharmik00700/Flutter/tree/main/Assignments/Module-7_Networking_and_API_Integration/2_module-7/weather_app
